DENISE REMY

NEW WORK

Denise Remy will show new paintings in oil on canvas, all evolved out of her pursuit of the evocative. The subjects are literal (objects in still life format), but they go beyond the surface for her, for she feels that the life in a painting is what she, the artist, puts into it. She sees her paintings as internal portraits of her life; this time the objects are blown up out of proportion to reality. She has shown with the Caldbeck since 1984, and has also shown at the Frick Gallery, formerly of Belfast, and at the M.S. Gallery in Hartford, CT.
