DENNIS PINETTE

FIRE AND WATER

Dennis Pinette says about the new work in this show, "The elusive geometries of fire and water in motion are timelessly hypnotic and transcendent. As ultimate solvents their powers are absolute in determining life and death." Painted in oil on panel as well as on canvas and gessoed rag paper, the works range in size from 32x32 inches to 18x18 inches. The artist describes his vision in this body of work as "defined by improvisation layered over direct observation". Pinette's work is included in many Maine museums and private collections. He has shown with the Caldbeck since 1985.
